### LITTLE TRADING DONE

Are but Few Buyers — Another
Break in Yukon Brings It to the Lowest Point Yet Touched-In Anaconda .... Final Hour Market Quickens.

New York, April 7.-A spurt of activity Cent. Leather. Ches. & Ohio. in the last hour of stock exchange business to-day, most of this being confined to the closing thirty minutes of the period, | The first two hours of the session, usually the time when the market is most active, the quantity of stocks turned over was less than one-half of the small number of shares bought and sold in the same time yesterday, so that it seemed as if even the two or three professional room traders who shared between them the bulk of yesterday's operations had wellingh wholly ceased their usual daily eforts to either buy or sell stocks for an advance or a decline of an eighth or quarter of 1 per cent. But the market at this time was, if almost absolutely inert, remarkably firm.

Favorable Comment Excited.

Favorable comment was everywhere excited by the fact that stocks did not appear to be pressing for sale even if buyers were few; and such a condition when it developed is not infrequently sufficient to cause, in and of itself, a recovering movement in values. During the morning the only stock in which any life to speak of was exhibited was that of the Third Avenue Railroad Company which rose at one time 4½ points upon only a little buying, the raise being accompanied by stories that an official report was likely soon to be made by the receivers of the company, showing that its affairs were better off than had been commonly imagined and also that the company would derive benefit from the prospective abolition of the passenger transfer system so far as it is concerned. Favorable comment was everywhere extion of the passenger transfer system so West, Union .. far as it is concerned.

In the curb market a break in Yukon Gold Mining stock to the lowest point yet touched by it was regarded as a natural commentary upon the peculiar sign for the advance in the stock that had been conducted. Neither this matter, however, nor an advance in Canadian Pacific stock exercised any sympathetic influence upon prices in general.

Market Quickens Suddenly. In the first two business hours after

midday there were hardly any dealings in stocks at all, but in the final hour the market quickened suddenly, and rapidly advanced, so that net gains for the day of between one and two points were shown in the leading issues. The reasons, as commonly assigned for

the rise in speculative circles, appeared to be threefold. One of these was the hardness of the market shown in the early part of the day, to which reference has been made.

The second was a prevailing conviction port, to be made public to-morrow after-agon, would exhibit winter wheat as be-ing in the most advanced stage seen at Argan Common 3% that the government's monthly crop re- American Pneumatic Service .... this season of the year for very many years back, and would testify to the presence of a favorable agricultural state

of affairs in general.

In the third place, there was a strong popular impression in Wall street to day that the Erie's plan of meeting its maturing short-term indebtedness, which has been the subject most talked of in the financial list in the last ten days, would be found to-morrow when the notes in question mature, to be substantially suc

### NEW YORK MONEY.

New York, April 7.—Money on call to-day opened at 1½ per cent, highest 2 lowest 1½, closing at 2. Most of the loans were at 1½.

Time money was in extremely light demand, and rates were lowered further for the shorter periods, thirty days money being quoted at 2½ per cent, sixty days at 2½a3, and nihety days at 3. Other rates were 3½a3½ per cent for four months, 4 for five and six months, 4a4½ for over the election period, and 5 for one year.

Mercantile paper was issued quite freely and absorption was moderately good. Rates, 5a5½ per cent for sixty to ninety days, indorsed bills, receivable; 5½a6 for choice four to six months, single names; 6½ for others.

Jean for choice four to six months, single names; it for others.

Sterling to-day was dull, with rates 5 points higher. Rates for actual business closed as follows: Sixty days. 4.84504.4815; demand, 4.86504.8655; cables, 4.875a4.8780. Commercial bills were 4.834a4.84.

The supply of grain and cotton bills was scare.

### GRAIN AND PROVISIONS.

Quotations furnished by E. F. Hutton & Co., members of the New York Stock Exchange and the Chicago Board of Trade, G. Bowie Chipman, manager, 1301 F street northwest.

Chicago, April 7.—The wheat market was dull and weak, slowly selling off, and was at the low point of the day just before the close. The steadines of the cable induced some buying early, but this was more than offset by the increase in the European visible and the favorable crop and weather news.

Com was dull and about steady. There was no interest shown in the absence of Chicago quotations, as every one is watching operations in that market, fearing the effect of the manipulation in the May delivery.

othe favorable crop and weather reports, and the urther large increase in the Chicago stocks of all

kinds.

The future provision markets were closed, but live hogs were quite firm, and receipts were less than expected. Local spot markets were quiet.

### The Safest Investments

Are those that do not fluctuate during disturbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, conon real estate in the District of Common, con-stitute "gilt-edge" investments. They do not depend upon the financial responsibility of indi-viduals or corporations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concern-ing Loans and Investments."
